

## Hunt Number 2714

### Cowlitz Valley

This hunt covers vast areas of GMU's 503,505,510,513 & 516. This is a Muzzleloader hunt and is being run by a hunt coordinator. The hunter may use any elk tag for this hunt. The large portion of this hunt occurs on private land within the Cowlitz Valley. Shooting may be very limited by distance or by obstructions such as houses, farm animals or roadways as there are many houses and roads within this hunt area. Hunters are required to wear hunter orange. If you apply for this tag the hunt coordinator will contact you to confirm the hunt. If you do not have access to private land in this area you may wish to apply in another area. Obtaining access before you apply is the best thing to do. Know the boundaries of where you are hunting to avoid problems with other landowners.
